

For Teachers: Please have the students read the sentences one at a time and correct their pronunciation of each sentence then have them repeat after you. Wait until after they read the sentence (use the number in place of the missing word) to have the students choose the correct answer to fill in the blank. When the students finish the article, move on to the further questions.

2[A] - Fossil Hunters Lesson1 AP1E 11-2

- 1. Recently, U.S. paleontologists — scientists who study fossils — have been ( 26 ) a growing private trade .
2. Under U.S. law, fossils on public land are considered federal property . Unfortunately, this fails to stop rare specimens from ending up in the hands of wealthy collectors.
3. Paleontologists claim that amateur fossil hunters are illegally removing fossils from national parks and selling them.
4. What troubles paleontologists most about this fossil theft is that information about the past may be lost before it is scientifically recorded .

- \*Choose the correct answer to fill in the blank from these choices.
5. (26) 1 successfully fighting 2 playing a major role in
6. 3 realizing the merits of 4 expressing concern over

Further Questions&sample asnwers\*Ask student to answer the question on their own at first. If the student can't answer correctly, have him look at the last page and read the "example answer" for the question. Have the student try to memorize the answer, if it's too long or difficult, you should divide the sentence into 2 or 3 parts to make it easier to remember. Once they have memorized the answer, the teacher should ask the question one last time so that the student can practice answering. Also if you find any mistakes, please mark the page and let me know ASAP.

- 7.1)What is a paleontologist?
8.1) It is a scientist who studies fossils.
9.2)What does the U.S. law fail to stop?
10.2)It fails to stop rare specimens from ending up in the hands of private collectors.
