### Where can I put my luggage?

- Passenger:           Where can I put my luggage?  
                          Could you tell me where the luggage  
                          counter is?
- Flight attendant:    Let me do that for you.
- Passenger:           My luggage is too big for that place.  
                          Can I put it somewhere else?
- Flight attendant:    We can have your baggage checked in  
                          beneath the plane. You can claim it upon  
                          our arrival.
- Passenger:           Thank you. Do you mind helping me with  
                          my luggage?
- Flight attendant:    I don't mind at all, ma'am.  
                          Let me help you with that.
