THE SENSE OF SIGHT

# NOSE

## The sense of smell

Frank would always remember the time he saw his first nasal hare.

# Tongue

The sense of taste

# HANDS AND SKIN

A close-up photograph of two hands, one from the left and one from the right, gently touching. The fingers are interlaced, with the right hand's fingers resting on the left hand's palm. The skin is smooth and appears to be in good health. The background is a dark, textured surface, possibly a piece of fabric or a wall. The lighting is soft, highlighting the contours of the hands.
