

NATURE

sun

The sun is important to life.

moon

The moon has pits.

tree

The park is full of trees.

flower

The flower is yellow.

mountain

We climbed mountains together.

sky

I feel calm when I look
at the sky.

star

The star is bright.

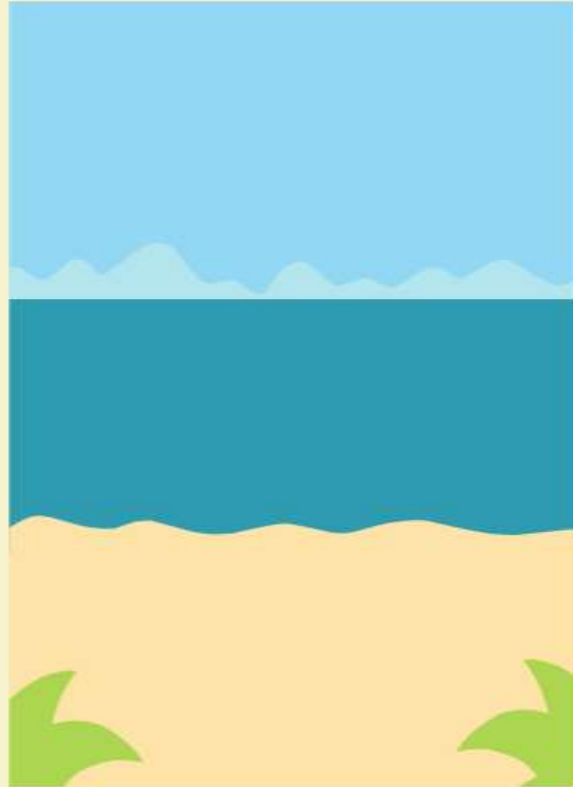

lake

Animals live around the lake.

forest

The forest has many trees.

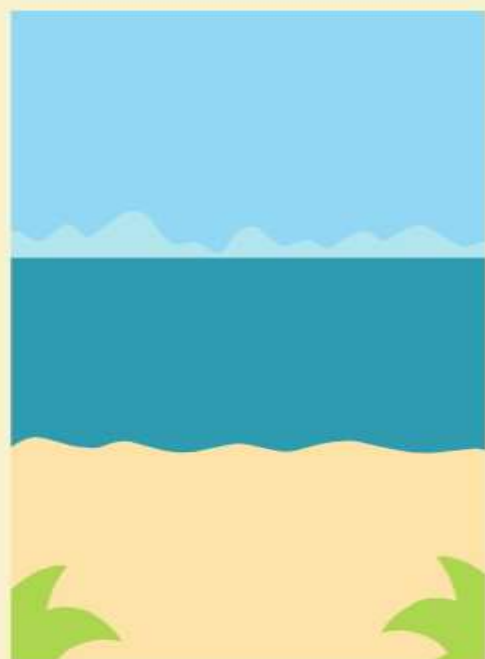

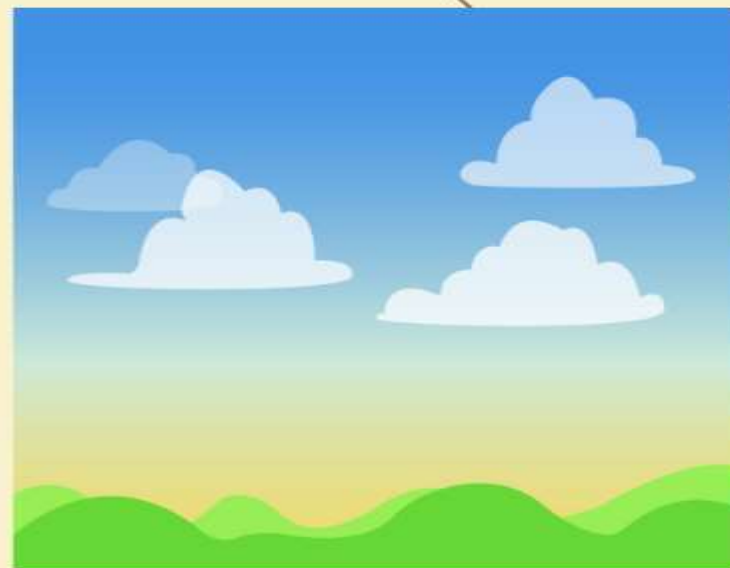

sea

You can see waves and
seagulls at sea.

Identify each part of nature's name.

Very Good!

THE
END
