### The Nazca Lines: Mysterious Drawings

In the Nazca desert in Peru, there are hundreds of giant drawings of animals and shapes. The drawings are thousands of years old and very large. Some are almost one kilometer long.

The Spider

You can easily see the lines when you walk in the desert. But, on the ground, they just look like lines in the dirt. You can only see the pictures from high in the sky. And they were drawn long before there were airplanes.

Who made the Nazca drawings? How did they make them? And who looked at them from the sky?

Another view of the Nazca area

**It's a mystery.**
