TOEIC PART 7

READING

COMPREHENSION

GENERAL INSTRUCTIONS

A. Orient student on what he/she will do in each type of test. Do this only on chapter 1. For the remaining chapters; you don't have to do the orientation.

B. Student must type his/her answer on the Skype chat box.

PART 7: READING COMPREHENSION

A. Tell the student that in Part VII he/she will read passages in the form of letters, ads, memos, faxes, schedules, etc. The reading section has a number of single passages and 4 double passages.

B. He/she will be asked 2-4 questions about each single passage, and 5 questions for each double passage. Sometimes you will be asked for specific details.

C. Other times he/she will be asked about what the passage implies.

Printed on 10/10/2014 10:10:10 AM. All rights reserved. Prohibited.

D. In the paired passages he/she will also be asked to make connections between the two related texts.

E. On the real test you will not have time to read every word. You need to practice scanning and reading quickly for details.

F. Assist student on how to do scanning and how to read quickly

G. Manage time wisely in this part of the test.

Printing of this page is strictly prohibited.

TRD Educational Conference
Treedown Centre
West 49th Street
8th-10th June

To register and reserve a place for the conference, please complete the following details:

Name: _____

Company: _____

Number of people in party: _____

- 8th June

d. Pay by Debit or Credit card

5. How much does it cost someone to attend the conference for three days, if they register after April 30th?

a. \$300

b. \$150

c. \$450

d. \$390

Switch to *Energy First*

Energy First is one of the UK's most innovative energy suppliers. We were the first energy supplier in the country to offer smart meters free of charge to our customers. These computerized meters submit automatic electricity readings for once an hour and once daily for gas. This information goes directly to the customer's online account, allowing them to view and monitor energy usage. By understanding how much money they are spending on energy, we strongly believe that people can take control of how much energy they use and make significant savings to their monthly bills.

If you want to benefit from our smart meters, all you have to do is make us your energy supplier. Switching is simple. The first step is to click the 'show prices' button below to compare our tariff with that of your current provider.

If you decide to go ahead, apply using our simple online form. We'll handle the rest, and keep you regularly updated with the progress.. There's no need to contact your current supplier.

If, within 7 days of submitting your form, you change your mind about switching energy suppliers, don't worry. We give you a 7-day cooling-off period during which you can cancel your application with no penalty.

It will take approximately 5 weeks for us to complete the process of transferring you to our supply. A week before your supply goes live, we will email you to confirm a start date.

Once you have become a customer, you'll be contacted over the phone by a local installer to arrange a convenient time to fit your smart meters. You will need to be at home when these are fitted.

Once they are installed, you can check your energy use online. Until then, you can submit monthly readings online in order to obtain an accurate bill.

6. What is the purpose of smart meters?

a. to reduce the costs of energy bills

b. to inform customers which suppliers offer the best rates

c. to allow customers to pay their bills online

d. to show customers how much energy they use

7. Customers switching to Energy First do NOT need to:

- a. complete an application form online
- b. inform the company that currently provides their energy
- c. be at home when the meters are installed
- d. allow 6 weeks for the suppliers to be switched

8. What can be inferred from the passage?

- a. Energy First offers cheaper energy rates than other companies.
- b. Customers will have no gas or electricity for 5 weeks while switching suppliers.
- c. You have to pay a fine if you cancel your application after 7 days.
- d. All Energy First customers must have smart meters if they want accurate bills.

Printed on 10/10/2014 10:10:10 AM
9. Once customers' supplies go live, they will soon receive:

a. a phone call from a meter installer.

b. a smart meter in the mail.

c. an energy bill from their previous suppliers.

d. a meter reading from the new suppliers.

GOLF Colures DEVELOPMENTS
